Subject: FW: Zika Virus Information

You may not be aware, but after sending this information to you which reflects that the virus is not passed via human-to-human contact, yesterday afternoon we learned of the first human-to-human transmission via sexual contact in Dallas, Texas. Please update your respective audience of the change in information regarding how this virus can be spread. Here is a [link](#) to an article discussing the first human-to-human transmission in Dallas. If you have any questions, please let me know. My how the speed of the world is fast sometimes!
