GUIDELINE STATEMENT

The Texas A&M University (TAMU) College of Agriculture and Life Sciences (College) recognizes that consulting and other outside employment can be beneficial to faculty and to Texas A&M AgriLife (AgriLife). When appropriate, the College encourages the involvement of its faculty in extramural activities that are consistent with their primary responsibilities and mission of the College. The College has a commitment to allow faculty members to make their expertise and services available to business, industry, government, professional societies, and other appropriate entities to the extent that such outside services contribute to the professional development of the individual employee and to the improvement of education, leadership development, research, and service programs.

REASON FOR GUIDELINE

These guidelines apply to consulting and outside employment of faculty members that is directly related to their academic and professional field or discipline. Outside employment and equity interests of faculty members that are not related to their academic and professional field or discipline, and the outside employment of non–faculty employees are covered in other rules.
