PROCEDURE SUMMARY

In November 2001, the Governor, Lieutenant Governor, and Speaker of the House issued a memorandum authorizing state employees who are called to active military duty to use emergency leave “so that they do not experience a reduction in total pay or benefits.” Emergency leave, in addition to making up any differential between the military pay and state pay, will enable the continuance of the state contribution toward benefit coverage, and sick and annual leave accruals. Employees whose military pay exceeds their state pay are not eligible for emergency leave; however, their military leave authorization will be applied so there is no loss of benefits. Employees (including student workers and graduate assistants) may receive up to 15 days of military leave as described in System Regulation 31.03.06, Military Leave and Service.
