

Workers' Compensation – Body Part Injured

Please use the body parts below whenever possible for the DWC-1 block 19. When listing the body part, please be specific. For example, if only "leg" is listed, it cannot be determined if it was the thigh, calf, or shin, or if it was the right or left leg. For multiple body parts of the same type, follow the body part with a comma, then "both." For just one body part such as an eye, follow the comma with a L or R. For the back, use lower, upper, or entire to describe the area.

- Ankle (L, R, Both)
- Arm (Upper, or entire L, R, Both)
- Back (Lower, Upper, or Entire)
- Body (Entire Body for exposures to fumes, chemicals, etc.)
