TO: Texas A&M AgriLife Unit Heads & Business Administrators – Off Campus

SUBJECT: Compliant UAS & Model Aircraft Activity

Please forward to appropriate staff.

I would like to introduce myself to all of you, my name is Jessica Flores and I am a Risk and Compliance Coordinator for Texas A&M AgriLife. I have been appointed the Supervising Authority for Unmanned Aircraft System(s) at Texas A&M AgriLife Research and Extension centers. As Supervising Authority I will oversee safe and compliant UAS and model aircraft activity, as well as be a helpful resource for any questions or concerns you may have. I have attached a short survey that will help determine which centers are participating in this activity and which centers are not participating, but wish to. If you have any questions please feel free to contact me.

*If your facility has a project in progress that involves UAS operations please provide me with the project number, title of project, sponsor and project administrator. Unmanned Aircraft System(s) has been added as a compliance item on Maestro and I would like to make note of the projects that are already in progress. I appreciate your cooperation and assistance.

Should you need assistance, please contact Jessica Flores, Jessica.flores@ag.tamu.edu or 979.862.2689.
