MEMORANDUM

TO: All Texas A&M AgriLife Research Employees

SUBJECT: Reaffirmation of Texas A&M AgriLife Research's Commitment to Equal Opportunity, Access, and Affirmative Action

Texas A&M AgriLife Research is committed to providing an employment and work environment that is conducive to the personal and professional development of every employee. As Director, I am responsible for providing an equal opportunity environment, and each employee is accountable for creating an atmosphere that values and nurtures community, respect, and accessibility for all.

The mission of Texas A&M AgriLife Research is to conduct agricultural research to assure the highest quality food and fiber products and a sustainable environment, as well as fostering economic viability throughout Texas and the national agricultural industry. I am committed to meeting these goals through a dynamic workforce that effectively responds to our constituents by continuing to build on each other's ideas, expertise, perspectives, and experiences. In pursuing its goals, Texas A&M AgriLife Research does not discriminate or permit harassment against any individual on the basis of race, color, religion, sex (including gender identity, sexual orientation, and pregnancy), national origin, age, disability, genetics, status as a disabled veteran or protected veteran, or any other legally prohibited basis in employment or educational programs.

It is my firm commitment to ensure that equal opportunity and access will be provided throughout Texas A&M AgriLife Research to all current and prospective employees, and to the public. If you have any questions related to equal opportunity, access, or affirmative action, please direct them to Elizabeth Schwartz, Chief Human Resources Officer, 979-845-2423, elizabeth.schwartz@ag.tamu.edu. Please join me in this commitment.

Cliff Lamb, Ph.D.
Director
