A map of hotels appears at the top of the page. Your company’s preferred hotels are indicated with pink dots.

Itemize Nightly Lodging Expenses

A hotel bill typically contains a variety of expenses including room fees, taxes, parking, meals, valet, telephone charges, and personal items. These expenses must be itemized so that they can be accounted for correctly. Concur Premier gives you the tools to quickly itemize your lodging-related expenses.

Step 1: Verify Auto-Itemized Hotel Expenses

The hotel auto-itemization feature automatically itemizes any card transactions that have hotel folio data or an e-receipt from a hotel vendor. Your company determines if your hotel expenses are automatically itemized. If not, you can manually itemize your hotel expenses as described in Step 2 below.

The result of hotel auto-itemization is similar to what you see if you manually itemize the hotel expense. Expense itemizes the hotel expense based on predetermined mapping. Examples of the itemizations you will see on your expense report are: parking, meals, and internet access. You can update the auto-itemized expenses and itemize any remaining balance as described below.
